DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7, 9-17, 19, and 20 are allowed.

- 2. The following is an examiner's statement of reasons for allowance: it is neither anticipated nor obvious over the prior art of record to have a target for magnetron sputtering as claimed in claim 1 or a sputtering method as claimed in claim 11 that comprises a target or a sputtering source as claimed in claim 20 comprising a plurality of species that form a film comprising a material of higher saturation magnetization than that of the species.
- 3. As shown by Applicant in the parent application, US 2002/0160229 A1 to Kim et al. (Kim) has been mistranslated in Table 2. Based upon the declaration of Jang Won Park in the parent application, and Applicant's explanation in the parent application, it is clear that Kim is stating saturation magnetic induction and not magnetic saturation. In so doing, Kim would actually teach a saturation magnetization that is less than that of iron (i.e. using backward calculation from the $B=4\pi M$ formula). In other words, Kim teaches species that have higher saturation magnetization than that of the formed film and thus does not read upon Applicant's invention.
- 4. There is no motivation to modify Kim to change the saturation magnetization to be higher than iron.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

General Information

For general status inquiries on applications not having received a first action on the merits, please contact the Technology Center 1700 receptionist at (571) 272-1700.

For inquiries involving Recovery of lost papers & cases, sending out missing papers, resetting shortened statutory periods, or for restarting the shortened statutory period for response, please contact Denis Boyd at (571) 272-0992.

For general inquiries such as fees, hours of operation, and employee location, please contact the Technology Center 1700 receptionist at (571) 272-1300.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven H. VerSteeg whose telephone number is (571) 272-1348. The examiner can normally be reached on Mon - Thurs (6:30 AM - 5:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nam X. Nguyen can be reached on (571) 272-1342. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
